

## **The Oregon Brewers Festival Recycles its Mugs!**

We are happy to announce that we have found a company that will recycle our plastic mugs from this and previous year's festivals. Note that in order to drink beer at this summer's festival, you are required to purchase a 2008 mug. Mugs from previous years will not be filled. But if you wish to bring all of your old mugs to the festival to be recycled, we will gladly take them off your hands and keep them out of landfills. Just look for the recycle boxes at the main entrances.

Cheers!
